**Letter of recommendation for House of Allure:**

It has been a pleasure to assign House of Allure to a few of our decorating projects!! Initially we asked Lisa to come up with window coverings for all the conference and wedding spaces. Her tenacity, passion and eye for precision was what impressed us. These rooms are now adorned with beautiful yet practical blinds perfect for their purpose.

We were so impressed with the professionalism, ease of grasping our ideas and workmanship involved in this project that we had to bring Lisa onboard for sunscreen roller blinds in the restaurant. They are great once again aesthetically pleasing and practical.

Even small components are not a hassle for House of Allure. We created a retro chandelier but couldn't source the red cord needed. Lisa however had that sorted in a timeous fashion.

The last installation done by Lisa was the external awning. I had a few concerns as we have strong winds. I should have known by all other accounts that this lady knows what she is talking about. It is once again beautiful, practical, sturdy and definitely stands up to the wind!

Thank you Lisa, I am sure our paths will cross again in the very near future!

Cheers,

Tenney Parker
